Art Unit: 3744

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2, 6, 8, 9, and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Foye in view of Hodosh. Foye discloses the claimed invention except for the holder being size-adjustable. Hodosh teaches a beverage cooler having holders 15 and 16 which are size-adjustable. See column 4, line 55 to column 5, line 8. It would be obvious to modify Foye so that the holder 30 is size-adjustable, in view of Hodosh, for the purpose of accommodating different size beverage containers.

3. Claims 3-5, 7, and 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 15-20 are allowed.

5. In claim 18, lines 1 and 2, the statement "The thermally conditioned beverage container of claim 1," is confusing and should be deleted.
